WINDSOR GRANGE ADOPT RESOLUTIONS

The Windsor Grange has adopted the following resolutions and asks the other Granges in the county to endorse them:

Whereas, Our public roads are in very bad condition,

And Whereas, Under the present system of road working it is impossible to keep the public roads in good condition without great expense to the taxpayers, the present wages being not less than $2.00 per day for each man employed,

And Whereas, The cost of putting the criminals confined in the county jail to work on the public highways will not be more than $1.00 per day for each man;

Therefore, Be it resolved, that Windsor Grange, No. 338, P. of H., asks the co-operation of all the subordinate Granges and the Pomona Grange of this county to take up the question of putting the criminals confined in the county jail of this county, for all misdemeanor offense, to work on the public roads of this county, and asking the different Granges to appoint a committee to meet with the Board of Supervisors for the purpose of procuring an ordinance to that effect.

Adopted Feb. 3rd, 1906.

A Letter from Progressive Grange No 308 Healdsburg was a resolution proclaiming to Mutual Life

Insurance, adopted by Progressive Grange
to be forwarded to the Sebastopol Co, Pomona Grange,

Whereas, Many Mutual Fire Insurance companies are now in successful operation in different parts of the country, saving the farmers many thousands of dollars annually by giving protection to farm property at about one fourth the cost in the old line fire insurance companies, and

Whereas, it is a well known fact that even greater extortions prevail in the old line life insurance companies, where graft and corruption are the rule as revealed by recent investigations,

Therefore, be it resolved by Progressive Grange, that we favor the organization of Mutual Life Insurance company along lines similar to those followed by the Mutual Fire Insurance companies, and

We recommend that the necessary steps be taken to establish said system, and

Be it further resolved,

Resolution.

WHEREAS, the citizens of the United States have come to regard the Postal Service as one of the most important branches of the Government; and,

WHEREAS, it is the ambition of all true citizens to see this service advanced to a more perfect system not excelled by that of any other nation, and,

WHEREAS, the deficit of the Post Office Department for the year ending June 30, 1906, amounted to practically $15,000,000. thereby creating a condition that will retard advancement and improvement in our Postal Service, and,

WHEREAS, we believe this enormous deficit is caused, in a great measure, by the payment of exorbitant prices to the railroads for the carrying of mails; by the payment of extravagant prices for the use of stamping machines, time recording clocks and many other supplies used in every branch of the Postal Service; and by the flagrant abuse of the Franking Privilege, therefore be it

RESOLVED, that the National Grange be requested to select a committee of three members of the Order, giving them full power to employ all necessary assistance, such as lawyers, stenographers and expert accountants; said committee to proceed to Washington, D. C. and make a thorough investigation of public records and all other available sources of reliable information in all branches of the Postal Department; and if, in their judgment, any unnecessary financial drains are discovered, the National Grange shall at once convey the facts to the President of the United States and to the National Congress and demand a personal investigation.

The Worthy State Master Griffeth pleasantly surprised us with a friendly visit and with pleasure we listened to the little talk he gave us, And we all felt delighted with his presence, And sorry so few were present to greet him.

Election of trustee was postponed.

After a short recess and consultation to talk over Installation, it was decided to have an all days meeting,

Initiate our new candidate, and have a joint installation with Petaluma Grange if they would join us, also with the promise of having Worthy Master Griffeth as installing officer - or with his promise of some State officer

Sisters M Meeks Shute & Stone were appointed committee on dinner.

Secy was Authorized to write notifying members of the dinner & Installation also to notify Mr M Braughler of his Initiation.

A Resolution was read & adopted by Sebastopol Grange ried from Henry E Reed Director of Exploitation of Alask-Yukon-Pacific Exposition to be held at Seattle 1909.

Resolution.

Whereas, an International Exposition to be known as the Alaska-Yukon-Pacific Exposition will be held at the City of Seattle, Washington, from June 1 to Oct 15, 1909.

Whereas, the primary purposes of said Exposition are: 1 to demonstrate the vast and constantly increasing importance of the commerce of the Pacific Ocean countries in North America, South America, Asia & Oceanica; 2 to bring to the notice of the world the resources and potentialities of the Alaska and Yukon territories of the U. S. and the Dominion of Canada; 3 to demonstrate the unrivaled progress of Western America.

Whereas, all lines of American manufacture and production would be vastly benefited by enlarged trade relations between the U. S. and the Pacific Ocean countries, as markets, which now buy little or nothing from us, would be open to our commodities. Our dealings with Pacific Ocean customers, particularly with those living in Asia and Oceanica, would be facilitated if our exporters possessed more intimate knowledge of economic conditions in the Pacific Ocean countries, the lack of which knowledge has been emphasized in the Consular Reports of the U. S. covering a long period of years.

Whereas, the Ter of Alaska, if supplied with adequate rail transportation and developed to the same degree that Finland is, would support, through agriculture alone a population of 5,000,000.

Whereas, no exposition has ever been held in the U. States having for one of its main objects the promotion of Pacific commerce and the advancement of the trade of the U. States with Pacific Ocean countries

Resolved, that we commend the aims and purposes of the Alaska-Yukon-Pacific Exposition, we believe that

it will bring the two shores of the Pacific Ocean together, commercially, with the result that our exports will acquire a more thorough knowledge of how to secure and hold trade in lands to which the U. S. now makes limited sales. We believe that it will so exploit the resources of Alaska that that Territory will become popular as a land of homes, thus adding materially to the prosperity of our country.

Resolved, further that the State of Colo should participate in said exposition, the U. S. should participate by erecting a Government building and installing therein a Government exhibit; and by making a special exhibit of Alaska's resources in a special Alaska building,
